

Monticello Nursery Co.

"HOME OF THE FAMOUS MAHAN PECAN"

MONTICELLO, FLORIDA

The State of Florida has honored Mr. Fred A. Mahan, owner of the Monticello Nursery Co., by naming the Highway between Monticello and Tallahassee, Fla. "The Fred Mahan Drive."

For many years Mr. Mahan has furnished plants and supervision to landscape this 26 mile stretch of highway with many thousands of plants and trees, and it is known as one of the most attractive roads in the State.

Above is one of the bronze markers that have been placed at each end of the Fred Mahan Drive.

MAHAN PECANS

MAHAN PECAN (Actual Size)

You can grow the world's finest pecans in your own back yard.

Mahan trees are vigorous with extra large leaves and make as fine a shade tree as any you can plant. In addition they start bearing the second or third year and rapidly increase in production so that in a short time you will have all the fine pecans you want for home use and a surplus to sell.

With each order for Mahan trees we send full instructions for proper planting and care that will insure your getting the best and quickest crops.

Plant a few Mahan trees in your yard and you will certainly be proud of the enormous pecans they produce.

Every Mahan tree is guaranteed to grow, and any that might, for any reason die within one year of shipping date, will be replaced f. o. b. Monticello for only \$1.00.

2- 3 ft. B&B	1.50

ILEX CORNUTA (Chinese Holly). Evergreen shrub with shining leaves and strong spines. Blooms in June and July. Scarlet berries.

12-18 in. B&B	2.00
18-24 in. B&B	2.50

ILEX VOMITORIA (Yaupon). A native evergreen Holly with small olive green foliage and bright red berries along the limbs. Can be pruned for hedges or specimen plants.

18-24 in. B&B	1.50
2- 3 ft. B&B	2.00

JASMINUM PRIMULINUM (Primrose Jasmine). Graceful, drooping branches and yellow primrose like flowers in late winter and early spring.

18-24 in. B&B	1.25
2- 3 ft. B&B	1.75

LAUROCERASUS CAROLINIANA (Cherry Laurel). A splendid native evergreen tree with bright shiny leaves. May be used as shade trees where unpruned, or can be sheared to cones and hedges.

2-3 ft. B&B	2.00
3-4 ft. B&B	2.50
4-5 ft. B&B	3.50
5-6 ft. B&B	4.50

LIGUSTRUM LUCIDUM (Waxed Leafed Ligustrum). Very bushy evergreen with dark green waxy leaves and panicles of white flowers followed by large bunches of black berries. One of the basic landscape plants and can be used for many purposes.

18-24 in. B&B	1.00
2- 3 ft. B&B	1.50
3- 4 ft. B&B	2.50

LOQUAT (Jap. Plum). An exotic large leaved evergreen tree, rather dwarf in habit. Blooms in November, and bears oblong yellow fruits.

2-3 ft. B&B	2.00
3-4 ft. B&B	2.75
4-5 ft. B&B	4.00
5-6 ft. B&B	6.00

MAHONIA BEALI (Japanese Holly Grape). Thick green deeply serrated foliage spread out Nandina fashion. Clusters of yellow flowers in winter are followed by purple berries. Does best in some shade.

12-18 in. B&B	1.50
18-24 in. B&B	2.00
2- 3 ft. B&B	3.50

NANDINA DOMESTICA. The well-known red berried plant. Plants in sun have red foliage in winter also; turning back green in the spring.

12-18 in. B&B	1.00
18-24 in. B&B	1.50
2- 3 ft. B&B	2.00

OLEA FRAGRANS (Tea Olive). Evergreen with small, white fragrant flowers that blooms nearly all winter. Moderate growth.

12-18 in. B&B	1.25
18-24 in. B&B	2.00

PITTOSPORUM TOBIRA. A splendid evergreen shrub with shiny dark green foliage. Can be pruned to any desired size or shape and does well in sun or shade.

12-18 in. B&B	1.25
18-24 in. B&B	1.75
2- 3 ft. B&B	2.75

PITTOSPORUM VARIEGATED. Variegated form with light green and white leaves. Quite striking.

12-18 in. B&B	1.50
18-24 in. B&B	2.00

PHOTINIA GLABRA. New growth of this plant is vivid red and very attractive among other evergreens. Should be clipped often to induce new growth.

PHOTINIA SERRULATA. Another variety that has a pinkish new growth, also serrated leaves. More compact growth and heavier leaves than the glabra.

Prices above two varieties.

18-24 in. B&B	1.50
2- 3 ft. B&B	2.25
3- 4 ft. B&B	3.25

PYRACANTHA FORMOSANA. The showiest of this family. Large, bright red berries in clusters. On older plants berries almost cover entire plant. About the same spread as height.

18-24 in. B&B	1.75
2- 3 ft. B&B	2.50
3- 4 ft. B&B	3.50
4- 5 ft. B&B	6.00

PYRACANTHA LALANDI (Laland Firethorn). Winter berried plants rapid in growth with many orange yellow berries. Rather upright in habit.

2-3 ft. B&B	1.50
3-4 ft. B&B	2.50
4-5 ft. B&B	4.00
5-6 ft. B&B	5.50

RAPHIOLEPIS JAPONICA (Japanese Hawthorn). Handsome, hardy evergreen shrub with rather thick bright green leaves, and dense clusters of white flowers in the spring.

18-24 in. B&B	2.00
2- 3 ft. B&B	3.00

SEVERINIA BUXIFOLIA. Evergreen shrub with small boxwood like leaves and thorns. White sweet scented flowers followed by black berries.

12-18 in. B&B	1.25
18-24 in. B&B	2.00
2- 3 ft. B&B	2.50

VIBURNUM MACROPHYLLUM. Big-leaf Viburnum. An upright grower with shiny foliage and white flowers.

VIBURNUM ODORATISSIMUM. Vigorous growth with large medium green rather thick leaves. White fragrant flowers. Prices above two varieties.

12-18 in. B&B	1.00
18-24 in. B&B	1.50
2- 3 ft. B&B	2.00

VIBURNUM SUSPENSUM. A low spreading grower with somewhat leathery leaf that is very attractive. A profusion of white flowers in late winter.

12-18 in. B&B	1.25
18-24 in. B&B	2.00

CONIFEROUS EVERGREENS

BIOTA AUREA NANA (Dwarf Golden Arbor Vitae). The well-known dwarf golden Arbor Vitae. Compact and well shaped. Holds up well under heat.

12-18 in. B&B	1.50
18-24 in. B&B	2.25
24-30 in. B&B	3.00

BIOTA BONITA (Dwarf Globe Arbor Vitae). This is a beautiful rich green variety, dwarf and of slow growth. It is cone-shaped and rather broad.

8-12 in. B&B	1.00
12-18 in. B&B	1.50
18-24 in. B&B	2.25

BIOTA EXCELLSA. Pyramidal Arborvitae cone-shaped, bright green. A little broader at base than B. Pyramidalis.

2-3 ft. B&B	1.75
3-4 ft. B&B	2.50
4-5 ft. B&B	3.25
5-6 ft. B&B	4.00

BIOTA PYRAMIDALIS. Well-known pyramidal Arborvitae. Fairly slender in habit and a good grower.

2- 3 ft. B&B	1.75
3- 4 ft. B&B	2.50
4- 5 ft. B&B	3.25
5- 6 ft. B&B	4.00

CEDRUS DEODARA (Deodar Cedar). The well known blue green pyramidal cedar so often used for a living Christmas tree. Makes a handsome specimen tree.

18-24 in. B&B	1.75
2- 3 ft. B&B	2.50
3- 4 ft. B&B	3.50
4- 5 ft. B&B	5.00

JUNIPERUS COMMUNIS (English Juniper). Rather pyramidal growth. Gray-green pointed leaves, rather sharp. Relatively fast grower.

2- 3 ft. B&B	2.00
3- 4 ft. B&B	2.75
4- 5 ft. B&B	3.50

JUNIPERUS EXCELLSA STRICTA (Greek Juniper). Slow growing blue-green juniper. Rather irregular in shape.

12-18 in. B&B	1.25
18-24 in. B&B	1.75
24-30 in. B&B	2.50

JUNIPERUS PFITZERIANA (Pfitzer's Juniper). Forms a low, wide spreading head of bluish-green foliage. Very interesting and beautiful.

12-18 in. spread B&B	1.25
18-24 in. spread B&B	1.75
24-30 in. spread B&B	2.50
30-36 in. spread B&B	3.00

JUNIPERUS SYLVESTRIS (Japanese Juniper). One of the best conifers for the lower South. Needle-shaped leaves, bright to dark green. Upright growth and shears readily.

18-24 in. B&B	1.50
2- 3 ft. B&B	1.75
3- 4 ft. B&B	2.50
4- 5 ft. B&B	3.50

JUNIPERUS VIRGINIANA (Red Cedar). Native cedar tree with dark, green foliage. Compact growth.

18-24 in. B&B	1.50
2- 3 ft. B&B	2.50
3- 4 ft. B&B	3.00

PODOCARPOS MACROPHYLLA MAKI (Yew Tree). A handsome evergreen with rather dark, green foliage. Naturally makes a vase-shaped growth. Quite hardy.

PODOCARPOS CHINENSIS (Chinese Yew). A beautiful upright evergreen tree that may reach a height of 40 feet if left to grow naturally. The leaves, to 4 inches long, are narrow, glossy dark green and paler beneath. Prices above two varieties.

18-24 in. B&B	1.50
2- 3 ft. B&B	2.00
3- 4 ft. B&B	3.50

RETINOSPORA ERICOIDES (Cedar Cypress). This is a beautiful conifer, dense and compact in growth. Naturally it is an upright grower and may be pruned in very narrow columnar shape. The foliage is a light bright green.

18-24 in. B&B	1.00
2- 3 ft. B&B	1.25
3- 4 ft. B&B	2.00
4- 5 ft. B&B	2.50

RETINOSPORA VEITCHI (Moss Cypress). Silvery blue foliage. A handsome form that grows rapidly and shears well. Erect in growth.

18-24 in. B&B	1.25
2- 3 ft. B&B	2.00
3- 4 ft. B&B	2.50

MISCELLANEOUS TREES AND SHRUBS

MIMOSA FLOWERS

ALBIZZIA JULIBRISSIN (Mimosa). A small, hardy, deciduous tree with low, spreading, flat-topped head and finely divided, dark green leaves. It blooms in the summer, bearing large clusters of pink flowers.

2-3 ft. Bare Roots.....	1.00
3-4 ft. Bare Roots.....	1.50
4-6 ft. Bare Roots.....	2.00

CERCIS CANADENSIS (Redbud). The American Redbud or Judas Tree is a small, nicely shaped, deciduous tree with rounded leaves and produces an abundance of rosey pink flowers in early spring. As the flowers appear before the foliage a Redbud in full flower is a lovely picture.

2-3 ft. Bare Roots.....	.75
3-4 ft. Bare Roots.....	1.00
4-6 ft. Bare Roots.....	1.50
6-8 ft. Bare Roots.....	2.50

CORNUS FLORIDA (Dogwood). Small tree or large shrub with a spreading top. Pure white flowers come early in the spring followed by scarlet fruits. Well-known and well loved.

2-3 ft. Bare Roots.....	1.00
3-4 ft. Bare Roots.....	1.50
4-5 ft. Bare Roots.....	2.50

COCOS AUSTRALIS PALM. One of the hardiest of palms, with graceful blue-green foliage, producing a very fine effect. Since the plant is dwarf in growth, it is especially good for parkways and other formal plantings as well as for pots and urns.

18-24 in. B&B.....	2.50
2- 3 ft. B&B.....	3.00
3- 4 ft. B&B.....	4.50

CYCAS REVOLUTA (Sago Palm). Dense symmetrical crown of dark green leaves. Excellent for formal use and adapted to house culture in sunny places, if given good drainage.

18-24 in. B&B.....	2.00
--------------------	------

HYDRANGEA HORTENSIS (French Hydrangea). Long a favorite of Florida gardens, with its large, bold foliage and heads of blue flowers that are immense.

12-18 in. Bare Roots.....	.75
12-24 in. Bare Roots.....	1.00
2- 3 ft. Bare Roots.....	1.50

CYDONIA JAPONICA (Flowering Quince). The earliest deciduous shrub to flower. Its leafless branches displaying the brilliant rosy red flowers in January, and if cut before that time and placed in water in house will even open up in December.

18-24 in. Bare Roots.....	1.00
2- 3 ft. Bare Roots.....	1.50

LAGERSTROEMIA INDICA (Crepe Myrtle).

Among the most important shrubs of the South, and as valuable here as the lilac in the North. A vigorous, well-grown plant that will attain a height of 15 to 20 feet, and be an immense bouquet of flowers in the summer and fall. Attracts much attention especially from visitors of the North.

Very hardy. Watermelon Red, Purple and Pink.

18-24 in. Bare Roots.....	.60
2- 3 ft. Bare Roots.....	.75
3- 4 ft. Bare Roots.....	1.00
4- 5 ft. Bare Roots.....	1.50
5- 6 ft. Bare Roots.....	2.00

M. SOULANGEANA NIGRA (Chinese Magnolia). Large flowers that are dark purple outside and pales inside. Buds form in the winter months and bloom in late winter. Makes a quick growth and forms a large shrub anywhere. Very showy.

18-24 in. B&B.....	2.00
2- 3 ft. B&B.....	2.50
3- 4 ft. B&B.....	4.00
4- 5 ft. B&B.....	5.00

WEIGELIA ROSEA. An attractive, vigorous-growing shrub with rose-colored flowers.

2-3 ft. Bare Roots.....	.75
3-4 ft. Bare Roots.....	1.00

LIRIOPE GRAMINIFOLIA. A low-growing broad-leaved grass with spikes of lavender flowers. Excellent in borders or shady places.

Medium Clumps—4x4 in.....	.35
Large Clumps—6x6 in.....	.50

Landscape Your Own Home Grounds

The plants shown on these pages are well suited for home landscape in the South, and can be arranged to make a most attractive setting. In general it is best to confine most of your planting to the base of the house, and to the borders of your lot, so that the front lawn area is open, and this should be planted to some good grass for your area. Evergreens and flowering shrubs can be interplanted in the borders with excellent effect, and you can get color in your yard almost the year around. In the South many evergreen plants, such as the Azaleas and Camellias also make marvelous flowers, and are all year beauties, either as green foliage plants or with their colorful flowers.

AZALEAS

INDIAN AZALEAS

BRILLIANT. Early to midseason. Compact, bushy plants with small leaves. Free bloomer, bearing flowers of a deep rose-pink.

CLEAR PINK. Late. A hardy, compact, free-flowering bush with fine foliage.

DUC de ROHAN. Medium-sized, salmon-pink.

GEORGE FRANC. A compact grower with very large pink flowers, shading to red in the center. This variety blooms early and has as much or more spread than height.

GLORY OF SUNNINGHILL. Another compact growing variety with medium-sized, rather deep salmon flowers. Foliage is good and plant is vigorous.

INDICA ALBA. Blooms later than Fielder's White. Pure white and very hardy.

IVERYANA. Almost pure white, but most flowers have a fine penciling of rose-pink which is visible at close range, but from 10 feet or more the blooms seem all white. Rather low and spreading in growth. Blooms in February and March.

LATE SALMON. Rather deep salmon, medium-size flowers. Blooms rather late in the season.

MME. FRY. Light, clear pink flowers and small shiny leaves make this an attractive plant at any season. Rather late to bloom and the plants are compact. When in flower a mass of color is all you can see.

PINK MACRANTHA. One of the most compact growers there is. Has a clear pink flower and blooms very late in the season, with a few flowers coming on the plants till June. An extremely hardy variety, never injured by cold.

PRIDE OF DORKING. Rose-red, large flower, late bloomer.

PRIDE OF MOBILE. Large- bright-pink flowers. Blooms in great profusion.

PRIDE OF TALLAHASSEE. Deep pink blooms and very free flowering. Medium height. Mid-season bloom. A strikingly beautiful plant.

PRINCE OF ORANGE. Rather spreading variety with deep orange-red flowers.

VERVAINE. Late. Rather compact. Flowers. White and pink variegated.

CONCINNA. Midseason. Strong, open growing variety. Rosy lavender-lilac flower.

CREMENIA. Tall growth. Deep pink flowers, late bloom.

ELEGANS. The fastest grower of any pink variety. A beautiful clear pink flower coming into bloom fairly early in the season. The bush makes a rank growth, spreads out well and is the top variety among the pink types.

FORMOSA. The giant among azaleas. Lavender flowers of very large size. The largest leaves of any azalea, deep green. Compact and heavy bush which will outgrow any other Evergreen Azalea. Formosa is hardy, stands up and grows well, even under adverse conditions. A beautiful all-year evergreen as well as a persistent flowering one.

LEDIFOLIA ALBA. The hardest of the white Indian Azaleas. Leaves hairy. Flower petals separated at the ends giving the flowers the appearance of a star. Hardy to Washington.

OMURASAKI. Flowers almost identical with Formosa, plant somewhat lower and wide spreading, with slightly narrower leaves usually arranged in rosette form.

PRESIDENT CLAY. An early and free bloomer having bright, brick-red flowers in profusion. This is the most vigorous-growing variety in the red sorts and one of the hardest. It is in the same class as Elegans and Formosa as to vigor of growth.

RED MACRANTHA. A very hardy deep orange-red variety. Rather tall growth with small glossy leaves.

VITTATA FORTUNEI PURPUREA. A tall, very early blooming variety. Flowers rather light lavender with white variegations. This variety starts blooming in November and continues for some three months. A fine background plant for lower-growing varieties.

KURUME AZALEAS

CHRISTMAS CHEER. Christmas red, compact and hardy.

HEXIE. Hose in hose, deep red flowers. Low dense growth.

HINODEGIRI. All you see is a brilliant mass of scarlet flowers when this hardy compact Azalea is in bloom. A shapely, dwarf plant ideal for a low hedge or facing down taller shrubbery.

CORAL BELLS. Large clusters of light, salmon-pink, hose-in-hose flowers. Very free blooming and a bushy plant.

SNOW. Pure snow-white flowers on a plant with glossy bright green leaves. The best drawf white.

The evergreen Azaleas listed here come in many colors and habits of growth. They can be widely used intermingled with other plants around the base of your home. They make colorful borders, and are often set in groups in semi-shade under trees. A mass planting of one variety is most effective, and in time will appear as one very large bush. The Indian Azaleas are planted 2½ to 3 feet apart for mass plantings, and the Kurume Azaleas about 1½ to 2 feet apart.

CAMELLIAS

ARAJISHI

CAMELLIAS ON OWN ROOT GROUP 1

ADOLPHE AUDUSSON. Semi-double, deep red. Very large flower with yellow stamens in center of compact mass. 18-24 in. to 24-30 in.

GRAFTED CAMELLIA PLANTS

LADY JANE GREY

Camellias are grafted in order to produce large bushy plants of fine varieties in a relatively short time. A fine Camellia variety grafted on an 8 to 10 years old Camellia understock will make a large sturdy plant in 3 to 4 years, while the same variety grown on its own roots from a cutting would take 12 to 15 years to make the same size plant.

The value of the understock used, the labor and time necessary to carry out the grafting process, and the losses incurred in grafting are reasons why grafted plants must be relatively higher in price than own root plants. We cannot recommend grafted plants too highly, because they are more vigorous in growth and give you such quick results.

KUMASAKA

GRAFTED CAMELLIAS, RARE VARIETIES

GROUP 1

ADOLPHE AUDUSSON VARIEGATED. Large semi-double. Deep red, creamy white variegation. 12-18 in. to 24-30 in.

ALLEN. Predominately white sport of Donckelari. Bright red edges and spots. 12-18 in. to 30-36 in.

FIMBRIATA SUPERBA. Semi-double. Deep flame red, wavy serrated petals. 12-18 in. to 30-36 in.

PINK PERFECTION

For an abundance of flowers and a long blooming season, Pink Perfection Camellias take the prize. Does well in semi-shade or full sun, and is probably the most popular variety grown.

ROSE BUSHES

PINK RADIANCE

RED RADIANCE

RED BUSH ROSES

ETOILE de HOLLANDE. We believe this is the finest red Rose grown. Flowers a glorious velvety, crimson, almost black in the bud. With plenty of fertilizer it is very vigorous and produces plenty of flowers.

LOUIS PHILIPPE. Very dark red. Holds its foliage the year round and blooms every month in Florida.

RED RADIANCE. The No. 1 Rose for the South. No Rose equals this for strong growth under adverse conditions, or for the great quantity of blooms it produces all through the season, even in the hottest part of the summer.

PINK PUSH ROSES

MRS. CHARLES BELL. The illustrious shell-pink sport of Radiance. Good, strong bush bearing plenty of flowers. One of the best all-season bloomers.

PINK RADIANCE. The original Radiance. Rose-pink flowers of good size and form. The yardstick by which other Roses are judged.

HOW TO PLANT BARE-ROOTED PLANTS AND TREES

Trees lose part of their root system in transplanting, and it is best to cut part of the top back to balance up. The hole for planting should be dug deep enough and wide enough to accommodate the roots without cramping them. Side roots should be spread out in a natural position and not packed downward. Any broken roots should be pruned off, and the ends of any roots that are bruised should also be pruned back slightly. You can see where the soil-line on the tree is and the trees should be set from 1/2 to 1 inch lower than this soil-line. Use good top soil, finely pulverized, in filling in. Put in some soil, then work it around the roots, keeping the side roots out sideways and not packing them downward. Pack the soil firmly around the roots when you put it in. When the hole is filled to within 2 to 3 inches of the top, fill it with water and let it soak down. Do this two or three times until you are sure the soil is thoroughly saturated to the bottom of the hole. Then fill up the hole nearly to the ground level with loose soil and do not pack this.

PLEASE NOTE—

Plants marked "B&B" are shipped with a ball of earth around the roots, and will weigh from 15 pounds to 50 or 60 pounds depending on size. Plants not so marked are shipped bare-root packed in moss, so they do not weigh much.

EDITOR McFARLAND. A strong growing variety of upright habit. Flowers clear deep rose-pink. Good form.

WHITE BUSH ROSES

CALEDONIA. Without a doubt, one of the finest white roses grown. The long, snowy white buds are exquisite, and the blossoms possess a delightful fragrance. Takes many prizes at the flower shows.

FRAU KARL DRUSCHKI. Known as the "White American Beauty." Very vigorous bushes and the largest flower of any white rose grown. While this is a Hybrid Perpetual Rose, in the South it is nearly ever-blooming.

YELLOW BUSH ROSES

GOLDEN OPHELIA. Medium-size yellow blooms. One of the heaviest blooming varieties in the yellow roses.

LUXEMBOURG. A rich apricot-yellow, shaded copper. One of the strongest of the deep yellow varieties.

TWO-TONED ROSES

PRESIDENT HERBERT HOOVER. A wonderful multi-colored Rose combining many shades of cerise-pink, flame, scarlet and yellow. Long, beautifully formed buds that open slowly and possess a most delicious fragrance.

TALISMAN. A brilliant flower combining orange-scarlet and golden-yellow in irregular proportions. Very double, well shaped.

CLIMBING ROSES

PAUL'S SCARLET CLIMBER. The most popular climbing Rose in the Southeast. Brilliant scarlet flowers, borne in great profusion in early spring.

2 YEAR FIELD GROWN ROSES IN ABOVE VARIETIES

Each	12
75¢	\$6.00

FERTILIZING

Almost any plant will do better if given a balanced fertilizer. Commercial fertilizer 5-7-5 formula is good on most garden shrubs, trees and fruit and nut trees. This should be applied about the middle of March, or after the plants have been set out. In this case plants set in March would be fertilized in May after the new roots have started to grow. The amount of fertilizer required varies with the size of the plant. A half pound per plant on the average 2 to 3 ft. plants would be about right. Keep the fertilizer out about 6 inches to a foot from the trunk of the tree or plant, scatter it on top of the soil and water it in.

TERMS OF BUSINESS:

Except where otherwise stated, all prices listed are F. O. B. Monticello, Fla. Terms Cash with order, or 25% cash, balance C.O.D. Pecans larger than 2-3 ft. and fruit trees larger than 3-4 ft. must be shipped express as they are too large for Parcel Post. If your express office is different from your Post Office please note this on order. Unless otherwise specified trees will be shipped by express.

PECAN TREES

- **MONEYMAKER.** This is an early bearer, prolific, healthy, and remarkably free from nut diseases that attack some of the pecans. Size medium, rounded, oblong. A heavy bearer of splendid nuts.
 - **MOORE.** A very consistent bearer, producing medium-sized nuts that are of the finest quality. Comparatively thin shell and plump kernel.
 - **SCHLEY.** One of the finest pecans. Very thin shell and meat that is of excellent flavor. Has few equals as a market nut.
 - **STUART.** This pecan thrives throughout the South and is a heavy bearer. It is extensively known. The nut has a shell of medium thickness and is of very good cracking quality.
 - **SUCCESS.** A good-growing, heavy-bearing tree. Nuts are oblong, with thin shell and full of good quality, juicy, sweet meat.
- | | |

| 5- 6 ft. | 2.25 |
| 6- 8 ft. | 2.75 |
| 8-10 ft. | 4.00 |

GRAPES

- **CONCORD.** The most widely known and popular of all American Grapes. Produces profusely. Its medium-size bunches of blue-black grapes, which everyone agrees have the finest flavor of any eastern variety. For grape juice and jelly there is nothing to excel it.
 - **NIAGARA.** The standard American green grape, holding the same rank among the green kinds that Concord holds in the blacks. Berries large, pale yellow, tender, sweet and juicy.
- | | |
|----------------------------|------|
| Above two varieties: | Each |
| 2 year | .50 |

MUSCADINE GRAPES

- **JAMES.** Berries large, blue-black, in clusters of from 6 to 10. Skin thin, pulp tough, sweet and juicy, quality good. A showy fruit.
 - **SCUPPERNONG.** Berries large, seldom more than 8 to 10 in the cluster. Color brown, skin thick, flesh pulpy, flavor sweet and of a peculiar musky aroma. Vine is free from all diseases and insects. Prolific and a sure bearer.
- | | |
|----------------------------|------|
| Above two varieties: | Each |
| 2 year | .75 |

KUMQUATS

- **MARUMI.** Small round, very ornamental fruit. Tree slow of growth, but compact and produces a profusion of fruit while still young.
 - **NAGAMI.** Vigorous, broadly upright, handsome. Fruit 1½ to 2 inches long, rind sweet, pulp and juice finely flavored. This tree forms a nice head.

Satsuma Oranges

SATSUMA ORANGES

- ✓ **SATSUMA ORANGE.** Those of you who have eaten tree ripened Satsumas know they are one of the sweetest and most flavorful of all oranges. The thin skin, so easily peeled, and the almost seedless meat makes them exceptionally easy to eat, and the rich orange red meat is delicious. This is the hardiest of the oranges, and grows along the Gulf Coast and the lower Atlantic Coast from about Charleston south. Makes a rather dwarf tree, and is an excellent ornamental evergreen.

Delicious

PEACHES

- ✓ **BELLE OF GEORGIA (Midseason).** White skin with red cheek. White flesh, firm, and of excellent flavor.
- ✓ **CARMEN (Midseason).** Large, creamy white, with deep blush. Skin tough, but flesh tender and of fine flavor.
- ✓ **ELBERTA (Medium late) Freestone.** Juicy yellow flesh, yellow skin with red cheek. The most popular peach in America.
- ✓ **GOLDEN JUBILEE (Midseason).** One of the heaviest yielding and best paying peaches. Bright orange with red blush. Flavor a real treat.
- ✓ **J. H. HALE (Medium late) Freestone.** Extremely large fruit, extra fine quality and superior flavor. A golden yellow highly colored with crimson blush.
- ✓ **MAYFLOWER (Early).** One of the strongest growers. Red flesh, white skin and is very rich and juicy.
- ✓ **RED HAVEN (Medium early).** Trees bear young, fruit is freestone and self-pollinating. Ripens early and colors bright red before ripening.
- ✓ **RED BIRD CLING (Clingstone).** An early peach. Fruit large and highly colored. Makes fine pickled peaches.

5 Azaleas from the assortment above, blooming size plants, enough for a real nice show in several colors and the price is only \$2.00 Postpaid.

AZALEA GARDEN—No. 2

A beautiful planting of these evergreen Azaleas will give your home beauty and color for many years. These 10 colorful Azaleas in heavy transplanted stock will add much to your landscape. Price \$3.00 Postpaid.

All this stock is packed in damp moss, and heavy enough to carry in excellent condition. We guarantee all plants to be freshly dug, and to reach you in first class condition. We have been shipping plants to satisfied customers for 50 years, and know how to handle them for best results.

CAMELLIA SPECIAL—No. 4

For beauty of late winter and early spring bloom nothing surpasses these fine Camellias. 4 plants of 3 year old stock in Red, Pink, White and Variegated varieties. Only \$2.50 Postpaid.

CHRISTMAS BERRY Offer No. 5

Large shiny dark green leaves, and loads of bright red berries from early fall all thru the winter make this a cheery long lasting decorative plant. Fine in pots or containers for indoor growth, as it does best in a good deal of shade. Christmas colors for Christmas and all thru the winter. 3 year plants—1 for \$1.00, 2 for \$1.50 Postpaid.

GARDENIA Offer No. 8

The sweet scented waxy white flowers grow in profusion, and make beauties to wear or in the landscape. A large plant will often have 150 to 200 blooms in a season. Strong plants 12 to 18 inches are 2 for \$1.00 or 5 for \$2.00 Postpaid.

FRENCH HYDRANGEA Offer No. 9

For a profusion of flowers we don't know of any plant that equals this color changing hydrangea. In acid soils the flowers are blue and in alkaline soils they are pink. You can change the flowers from blue to pink by using a little lime water around

the plants, or from pink to blue by pouring some vinegar and water around the plants. Likes a little shade or full sun, but don't plant in a heavy shade. Plants that will bloom this spring—2 for \$1.00 or 5 for \$2.00 Postpaid.

REDBUD TREE—Offer No. 11

Known for its myriad of pink flowers along the limbs real early in the spring, even before the leaves come out. A graceful flowering tree with heart shaped leaves, and a beautiful addition to your yard. 2 year trees—1 for \$1.00 or 3 for \$2.00 Postpaid.

CREPE MYRTLE Offer No. 10

Long trusses of Pink and Red flowers come in midsummer and early fall when not much else is in bloom. Plant a group of these for one of the prettiest spots in your yard for months of color and enjoyment. Medium size plants \$.85 each or 3 for \$2.25 Postpaid.

GLOSSY ARBUTUS (Abelia) Offer No. 6

Lots of shiny leaves that look like they have been varnished, and from June to frost hundreds of small bell shaped flowers. Makes a fine specimen plant when trimmed, and one of the best plants for hedges we know of. 2 year plants—2 for \$1.00 or 5 for \$2.00 Postpaid.

JAPANESE BOXWOOD Offer No. 7

A fine plant for borders, along walks or terraces. Grows well in window boxes too. Medium slow growth, compact and green the year round. 2 year 6 to 12 inch plants—4 for \$1.00 or 9 for \$2.00 Postpaid.

WHITE FLOWERING DOGWOOD Offer No. 12

The shining white flowers against a green background are well known throughout the South. Flowers are followed by red berries that stay on for a long time. Plant several of these for one of the prettiest spots in your yard. 2 year trees—1 for \$1.00 or 3 for \$2.00 Postpaid.

WAX LEAF LIGUSTRUM. This shiny leafed evergreen is one of the best for foundation planting around your house, or for use in the border. It is fairly rapid in growth with white flowers in panicles, and can be readily sheared into any shape you desire. It will grow naturally about the same spread as height.

2 Year Plants—
2 for \$1.00 or 5 for \$2.00 Postpaid.

NOTE: For quickest growth and best results we suggest planting as early in the season as you can. Plants will start new feed roots soon after they are set out, and so by early spring they are well rooted and able to pick up plenty of food and moisture, and will bloom and grow better.
